Fireman's Fund Insurance Company insured the production, but as part of the underwriting process, insisted on a thorough risk analysis of hazards as diverse as wayward arrows, poison ivy, bears, bugs and a chase across fast-running water.[33] Lawrence dyed her naturally blonde hair dark for the part of Katniss.[34] Other stars who dyed their hair for the movie include Josh Hutcherson as Peeta and Liam Hemsworth as Gale.[4] Lawrence also underwent extensive training to get in shape for the role, including archery, rock and tree climbing, combat, running, parkour and yoga.[35] On the last day of her six-week training phase, she had an accident in which she hit a wall while running at full speed, but was not seriously injured.[4] Lionsgate hired Olympic bronze medal-winning archer Katuna Lorig to teach Lawrence how to shoot.[33] With an initial budget of \$75 million,[36] principal photography began near Brevard in Transylvania County in Western North Carolina in May 2011[37] and concluded on September 15, 2011, with a final budget reported as between \$90 and \$100 million, reduced to \$78 million after subsidies.[4] Steven Soderbergh served as a second unit director.[38] and filmed much of the District 11 riot scene.[39] The movie was shot on film as opposed to digital, due in part to the tightness of the schedule; as Ross said in an interview with The New York Times, "I didn't want to run the risk of the technical issues that often come with shooting digitally—we simply couldn't afford any delays." [40] Virtually all production photography took place in North Carolina, with Lionsgate receiving tax credits of around \$8 million from the state government to do so.[citation needed] Most outdoor scenes, both from the arena and from the outskirts of District 12, were filmed in DuPont State Forest; the Little River, with its multiple waterfalls, provided several locations for shooting the river running through the arena.[41] To run across Triple Falls, Lawrence was attached to wires and ran on a board.[42] Many of the urban and interior locations, in the Capitol and elsewhere, were filmed in Shelby and Charlotte; other scenes were filmed in the Asheville area.[43][44] Ross and production designer Phil Messina drew on the buildings of the 1939 New York World's Fair and symbols of political power including Tananem Square and Red Square, when designing the Capitol architecture, which they wanted "to be set in the future but have a sense of its own past... Historically, among the "top 200 worldwide box-office hits ever (\$350 million and up), not one has been built around a female action star"[11] Manohla Dargis of The New York Times sees Katniss Everdeen as a female hero following in the lineage of "archetypal figures in the literature of the American West" such as Natty Bumppo, as well as characters portrayed by American actors such as John Wayne and Clint Eastwood.[112] Katniss is also seen as defying normative gender roles: she exhibits both "masculine" and "feminine" traits equally.[112] Dargis also notes that Katniss is a female character with significant agency: "Katniss is a fantasy figure, but partly what makes her powerful—and, I suspect, what makes her so important to a lot of girls and women—is that she's one of the truest feeling, most complex female characters to hit American movies in a while. Maybe it's a bloody satire of reality television", but concludes the film only proposes these theories and brings none of them to a reasonable conclusion.[110] Reviewers and critics have differing views on whether the film represents feminist issues. Plot The nation of Panem is divided into 12 districts, ruled from the Capitol, a thrill to bring home to Lionsgate".[11] The studio, which had not made a profit for five years, raided the budgets of other productions and sold assets to secure a budget of \$88,000,000 for the film.[12][10][13] Suzanne Collins' agent Jason Dravis remarked that "they [Lionsgate] had everyone but the valet call us" to help secure the franchise.[113] Lionsgate subsequently acquired tax breaks of \$8 million for shooting the film in North Carolina.[13] Gary Ross, Sam Mendes, David Slade, Andrew Adamson, Susanna White, Rupert Sanders and Francis Lawrence were listed as possible directing candidates, but in the end, Ross was announced as the film's director in November 2010.[14][15] Ross became interested in directing the film after his agent notified him about that a film adaptation of The Hunger Games was in development; having heard about the book due to his children reading it, Ross read the book quickly and called his agent to tell her that he wanted the job.[16] Ross had many conversations with Collins about how to adapt the story, and was fascinated by how Ancient Roman culture inspired the books.[16] Collins adapted the novel for film herself,[8] in collaboration with screenwriter Billy Ray and Ross.[17][18] The screenplay remains extremely faithful to the original novel,[19] with Ross saying he "felt the only way to make the film really faithful to the novel was to be totally subjective", echoing Collins' presentation of the novel in the first person present.[20] Ross felt that, to preserve the novel's first person point of view, the audience could know little more than what protagonist Katniss Everdeen knows about the story's developments.[16] Instead of presenting Katniss' internal monologues about the Capitol's machinations through actual monologues or voice-over narrations, the screenplay expanded on the character of Seneca Crane, the Head Gamemaker, to allow several developments for which Katniss is not present to be shown directly to the audience. [125] The Hunger Games is considered to be part of a wider battle royale genre, which had earlier been defined by Battle Royale.[126][127] Prior to The Hunger Games, the battle royale genre was largely limited to Japan, where Battle Royale had inspired a wave of manga, anime and visual novel works, such as Gantz (2000), Higurashi: When They Cry (2002), Future Diary (2006), Btoom! (2009), Zero Escape (2009) and Danganronpa (2010).[128] Wheeler Winston Dixon, a film professor at the University of Nebraska-Lincoln, listed several precedents: Battle Royale, Jackson's "The Lottery", William Golding's Lord of the Flies, Metropolis, Blade Runner, Death Race 2000, and George Orwell's Nineteen Eighty-Four.[129] Manohla Dargis in The New York Times compares it to Battle Royale, Ender's Game, and Twilight, but contrasts The Hunger Games in terms of how its "exciting" female protagonist Katniss "rescues herself with resourcefulness, guts and true aim".[130] Steve Rose of The Guardian refers to the film as "think Battle Royale meets The Running Man meets Survivor".[131] Charles McGrath, writing for The New York Times, said that the film will remind viewers of the television series Survivor, a little of The Bachelorette, and of the short story "The Lottery" by Shirley Jackson, published in 1948 by The New Yorker.[132] It reminded an author at Salon of the 1932 film The Most Dangerous Game.[133] The Hunger Games has also been compared to Robert Shekley's 1953 short story "Seventh Victim" and its 1965 Italian film adaptation by Elio Petri, The 10th Victim, as the story and film feature a government-endorsed, televised (in the film's case) "Big Hunt", featuring contestants from around the world acting as "hunters" and "victims".[134] Writing in The Atlantic, Govindini Murty made a list of touchstones the film alludes to, from the ancient Greek, Roman and Egyptian civilizations to modern references such as the Great Depression, the Vietnam and Iraq Wars, and reality television.[135] For her part, author Collins cites the myth of Theseus, the modern Olympic Games, reality television, and coverage of the Iraq War as her inspiration.[136][137][138] Controversies Race and ethnicity During the film's opening weekend, controversial statements about various members of the cast arose, sparking open dialogue about issues of racism, sexism and unrealistic city images. Ross explained, "In the book, Katniss speculates about the game-makers' manipulations ... It's like the Capitol's idea of itself, basically." [58][59] He further added that "it's not a pop song or anything. Deadline Hollywood. Retrieved April 26, 2015.
